

UNIVERSITY OF
WINCHESTER

Researching your Options

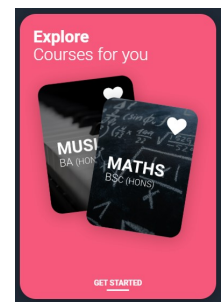

Please find below some activities that can help you to find out more about your post 18 options. This might include university but also degree apprenticeship and a variety of career options.

To Start

- You may already have a plan in place for the end of your time at school or college or considering a range of options. To get started about the things you might be interested in have a go at the [Buzz Quiz](#)

Getting into the Research

- There are a range of sources of information, make sure you are using quality sources of information so you can review and make comparison between future plans.
- Take a look at **UCAS Hub**—you can [set up](#) an account to start keeping your research in one place.
- Answer a few simple questions and get planning your future, first have a go at the ‘To do list’, where you can explore your options or if you already have some subjects or careers of interest you can look at these here.
- You can use the ‘Explore tool’ to discover the wide range of subjects and different jobs these could lead to. There is also the options to suggested courses for you based on the subjects you are interested in using the ‘For you’ tab.
- Don’t forget to keep adding the courses that are relevant to you to your shortlist.
- Take a look at the degree apprenticeship adverts too direct from employers. There is also more information at [UCAS Understanding Apprenticeships](#)

Going Beyond

- Not sure what you might want to study? Take a look at TheUniGuide’s helpful [A-Level Explorer](#) (you can use if not taking A-Levels) add the subject/s you are studying and it will suggest options you might not have considered.
