

Bring Your Own Device Policy (Student) 01.08.2025

Document Title:	Bring Your Own Device (Student)
Responsible Role and Department:	Director of KDS Knowledge & Digital Services
Approving Body:	University Leadership Team (ULT)
Date of Approval:	17 th September 2025
Date Effective From:	01 August 2025
Review Date:	31 st July 2026
Indicate whether the document is for public access or internal access only.	Public Access
	Internal Access Only
Indicate whether the document applies to collaborative provision?	Applies to Collaborative Provision
(Strikethrough text, as appropriate)	

Summary:

This policy sets out clearly what is required when using your own mobile device (phone, tablet, laptop etc.) on the University network (wired or wireless). Effective implementation of this policy will minimise the risk of data loss and/or inappropriate use or access to University electronic resources and information.

TABLE OF CONTENTS

1.	Scope	3
2.	Use of personal devices	3
3.	Storage	3
4.	Removable devices and media	4

1. Scope

- 1.1. The University understands that students will need to use a range of devices to successfully complete their studies. Many students find it easier to use their own devices at least some of the time. This policy, alongside the Network Security Policy, provide the guidance to undertake this safely and securely.
- 1.2. This policy applies to all University students and all authorised users who are provided direct access to our systems or networks. The policy also covers students and staff of other institutions who use the Eduroam network while connecting with your own institutional login.
- 1.3. This policy should be read alongside the IT Acceptable Use Policy.

2. Use of personal devices

- 2.1. Before connecting any device to University wireless or other available networks you must ensure:
 - 2.1.1.You have installed a suitable anti-virus and malware protection software. For more information about these visit the National Cyber Security Centre's <u>advice page</u>. The recommendations and suggestions on this page will meet the University requirements. Those using mobile devices should pay particular note to that section based on your operating system.
 - 2.1.2.You have read and adhered to all relevant policies. Those students living on campus and planning to use devices that connect to the network (including smart TVs, smart speakers, games consoles, personal assistants etc.) must register these devices using the University ClearPass system. This protects your privacy and ensures other people are unable to "hijack" your device(s). For more information on how to set-up and register devices visit the Intranet.
 - 2.1.3.If your studies or research require you to access resources which require additional review, where you may be accessing resources or services dealing with sensitive materials, this must be registered with Knowledge & Digital Services (KDS) before you attempt to connect to any site that may be flagged. Email <u>ServiceDesk</u> for advice and assistance.
 - 2.1.4.We have provided each University user a OneDrive space for encrypted and secure storage. You should use this exclusively for all University related work, including drafts, sharing with teammates etc. If you choose not to use OneDrive you must ensure you have installed suitable encryption software for the storage and access to University provided information. You must do this before connecting any device to University wireless or other available networks.
- 2.2. Users must ensure they reduce all the risks associated with accessing University resources and services. Advice and guidance should be sought from Knowledge & Digital Services on the risks of using networks away from the University (off campus or in international locations). This may be a particular issue for our Apprentice students or those who are studying while on placement. Email <u>ServiceDesk</u> for assistance.

3. Storage

- 3.1. Devices with synchronised online storage present considerable opportunities for data loss, inappropriate use, or access to information. Users therefore must ensure the following:
 - 3.1.1. Where the University has provided OneDrive students are expected to use this in favour of any other storage option.

- 3.1.2. Your University OneDrive should not be synchronised with any other storage solution(s).
- 3.1.3. No sensitive or important information should be synchronised to, or stored on, cloud-based storage that has not been provided by the University. This includes but is not limited to:
- iCloud
- Google Drive / Google One
- Dropbox
- Skydrive
- SugarSync

4. Removable devices and media

- 4.1. Storage mediums and devices such as USB sticks, external hard drives, flash card and any other portable drives carry considerable risks in transporting, storing or transferring information and so:
 - 4.1.1. Should not be used unless absolutely necessary to temporarily store information.
 - 4.1.2. Information on devices should be kept only long enough to complete the specific need. As soon as this is the case information should be fully deleted and made unrecoverable from that device.
 - 4.1.3. Encryption should be applied to all such devices. You can purchase USB devices with built-in encryption these are expected to be used.
 - 4.1.4. Any device plugged into a University computer will be scanned before you are able to use the device. If malicious code is detected, you will not be able to access anything on the infected device.
- 4.2. Should you lose a removable drive holding any University material you must immediately report this to ServiceDesk.

Equality Impact Assessment		
Summary of process undertaken to determine equality impacts:	An initial screening was carried out to identify potential impacts on protected groups. Relevant data and stakeholder feedback were reviewed to assess risks and opportunities. Where necessary, mitigation actions were proposed to ensure fairness and compliance with the Equality Act 2010. The assessment will be monitored and updated as needed.	
University Committee (name/ date) where equality impacts discussed (may be Committee of approval, or another):	University Leadership Team	
Identified equality impact(s) on colleagues and students (i.e. any specific impacts related to this policy that may cause disadvantage for people due to one or more particular protective characteristic)		
Protected Characteristic	Impact(s) identified and any action(s)/mitigation(s) to address these impact(s), as necessary.	
Age	No impact identified	
Disability	No impact identified	
Gender Identity	No impact identified	
Marriage/Civil Partnership	No impact identified	
Pregnancy and Maternity	No impact identified	
Race (incl. nationality)	No impact identified	
Religion and Belief	No impact identified	
Sex	No impact identified	
Sexual Orientation	No impact identified
